

GERSON YANCE

Software & Mobile Developer | Android (Kotlin/Jetpack Compose) | Flutter | MSc IT in Progress

PERSONAL INFO

- (+61) 0451704910
- g.yance32@gmail.com
- www.linkedin.com/in/gerson-yance-patricio

EDUCATION

- **Master of Information Technology**
Kaplan Business School, Brisbane, Australia – 2024
- **Mobile Development:**
Developed Android apps using Kotlin and Jetpack Compose, integrating with Firebase. Focused on responsive UI, backend connectivity, and app lifecycle management.
- **Bachelor of Electronic Engineer**
National University of Callao, Callao, Peru 2009 – 2014

STRENGTHS

- Strong passion for mobile app development, especially using Flutter and native Android (Kotlin).
- Proficient in building cross-platform applications with clean architecture and attention to performance and UI/UX best practices.
- Hands-on experience with Firebase (Auth, Firestore, Storage) and local persistence using SharedPreferences.
- Effective communicator and team player, with exposure to Agile environments and collaborative development workflows.
- Committed to continuous learning, with a long-term goal to grow in a full-time role as a Mobile Developer.

ADDITIONAL INFORMATION

- Based in Brisbane
- TFN and ABN registered.
- Immediate availability.

Detail-oriented Software Developer with strong foundations in frontend and growing expertise in Android mobile development using Kotlin and Jetpack Compose. Currently completing a Master of Information Technology in Australia, where I'm expanding my skills in mobile development, software engineering, and cybersecurity.

Experience includes freelance web development and academic mobile app projects using Kotlin, Flutter, and Firebase. Passionate about crafting user-centric mobile solutions and open to full-time or internship opportunities in Android development.

PROFESSIONAL EXPERIENCE

Frontend Developer

SEFPPEL E.I.R.L.

2022 - 2023

Lima, Perú

- Designed and developed fully functional, responsive websites for clients.
- Implemented responsive styling to ensure compatibility across various device sizes.
- Created modern, bug-free UX/UI designs, enhancing user experience and accessibility.
- Provided ongoing maintenance and updates based on client coordination and feedback.

MOBILE SKILLS

- Languages: Kotlin, Java, Dart
- Frameworks: Jetpack Compose, Android SDK, Flutter, Firebase
- Development Tools: Android Studio, VSCode, Git, Emulator
- Backend Integration: RESTful APIs, Firestore
- UX/UI: Material Design, Adaptive Layouts
- Testing: Unit Testing (basic), Android Debugging Tools

PROJECTS

Coffee Shop App (Academic / Kotlin + Firebase)

Android App built during TECH4300 Mobile Development subject

Developed a coffee ordering system with login (Firebase Auth) and dynamic product listing (Firestore). Implemented cart, order summary, and responsive Jetpack Compose UI.
